

RockGlass™ Rock Fiber Basalt Woven Header, Manifold and Turbo Wrap & Thermal Insulating Tape

1350°F / 732°C: Very High Temperature & Heat Resistant

- Basalt tapes do not fade or color change with heat exposure as do fiberglass tapes (plain, vermiculite coated or graphite coated). Basalt tapes also do not shed particles with vibration or movement as do coated fiberglass tapes.

1350°F / 732°C continuous rating, high insulation value & excellent personnel protection
